It is a wholly owned subsidiary of Kirloskar Oil Engines Limited, India, effective since June 23, 2015. The Company focuses on sales of diesel engines, diesel pump sets and generators in the North and Latin American regions through a distributor network. The Company's business is affected by general economic fluctuations. The Company commenced business in June 2015.

### **NOTE 2 – CASH BALANCES**

The Company considers all cash deposits at financial institutions to be cash equivalents. On March 31, 2023, the Company had a checking account valued at \$146,494. On March 31, 2022, the Company had a checking account valued at \$110,327. The FDIC insures accounts up to a maximum of \$250,000.

In accordance with ASC 855, the subsequent events have been evaluated through May 15, 2023, the date of which the consolidated financial statements were available to be issued and determined that there were not any significant items affecting the accompanying financial statements or requiring disclosure.

#### NOTE 4 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Accounting:

The financial statements of Kirloskar Americas Corporation. have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables and other liabilities.

#### *Use of Estimates:*

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

# (a Corporation) NOTES TO FINANCIAL STATEMENTS MARCH 31, 2023, and 2023

## Property and Equipment:

Property and equipment are recorded at cost. For financial reporting purposes, the costs of property and equipment are depreciated over the estimated useful lives as follows:

Category	Method	Estimated Life Years
Vehicles	Straight-Line	5
Office equipment & furniture	Straight-Line	3 to 10

Repairs and maintenance are charged to expense as incurred. Expenditures, which substantially increase the useful lives of the respective assets, are capitalized and depreciated over their useful lives. When an asset is sold, or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in income.

#### Receivables:

The Company considers accounts receivable to be fully collectible except for specific instances; accordingly, an allowance for doubtful accounts is established for the estimate of accounts that may ultimately not be collected. The Company considers receivables 180 days past due to be potentially uncollectible.

#### Income Taxes:

The Company is taxed as a C-corporation for federal income tax purposes. Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily for the difference between the tax basis and the book basis of assets and expenses not currently includable in income, or deductible, for income tax purposes. The deferred taxes represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled.

Management has evaluated significant tax positions against the criteria established by professional standards and believes there are no such tax positions requiring accounting recognition in the financial statements. Management does not believe its evaluation of tax positions will change within twelve months of March 31, 2023, or 2022. Any changes in tax positions will be recorded when the ultimate outcome becomes known. The Company's tax returns are subject to examination by the taxing authorities for a period of three years after filing the return.

# Inventory:

The Company holds inventory consisting of diesel engines and generator sets for stock and sale. The inventory is valued at cost or net realizable value, whichever is lower, for financial statement purposes.
