INDEPENDENT AUDITOR'S REPORT

To the Members of LA- GAJJAR MACHINERIES PRIVATE LIMITED

Report on the Audit of the Standalone Indian Accounting Standards (Ind AS) Financial Statements

Opinion

We have audited the standalone Ind AS financial statements of LA- GAJJAR MACHINERIES PRIVATE LIMITED ("the Company"), which comprise the balance sheet as at 31 March 2020, and the statement of Profit and Loss (including Other Comprehensive Income), Statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information(hereinafter referred to as "the Standalone Ind AS Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the standalone state of affairs of the Company as at 31 March 2020, and its standalone profit (including Other Comprehensive Income), standalone changes in equity and its standalone cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone Ind AS financial statements of the current period. These matters were addressed in the context of our audit of the standalone Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report BHAG

ED ACC

M/s P. G. BHAGWAT

CHARTERED ACCOUNTANTS

Impact of verification of Property, Plant & Equipment (Fixed Asset):

During FY 2019-20, the company has completed the verification of fixed asset. Company had involved independent external expert to verify these assets. The scope of the expert was to complete the physical inspection of all fixed assets, prepare location wise physical asset lists to comply with acts, regulation in force such as Companies Act, 2013 etc., tagging of all fixed assets, reconciliation of Fixed Asset Register. Basis the report of the expert the company has written off net assets worth 210 Lakhs during the year which is included in other expenses (Note 32) in the Financial Statement.

Given the significance of such verification to the company and audit materiality based on our assessment, impact of verification of Fixed Assets is identified as Key Audit Matter.

Audit Methodology:

- We critically analysed management's key inputs provided to the expert for the purpose of verification such as scope, existing fixed asset register.
- We discussed and understood the methodology followed by the expert to complete the physical verification activity and limitation on the verification.
- We considered the reasonableness of the methodology followed by expert for the purpose of verification.
- On the basis of signed physical verification report, we tested the accounting treatment given by the company in the financial statement for identified shortage/ excess.

Adoption of New Accounting Standard i.e. Ind AS 116 "Leases":

The company has adopted Ind AS 116 which replaces Ind AS 17 with effect from 1st April 2019 using modified retrospective transition method as disclosed in note 34 of the financial statements. The company has also applied practical expedients as per the guidance provided in Ind AS 116. Accordingly, 'right of use' of asset of carrying value of Rs.724.54 Lakhs net of depreciation charge of Rs. 178.22 Lakhs and Lease Liability of Rs. 381.19 Lakhs after considering lease payments of Rs. 100 Lakhs and finance cost of Rs. 7.58 Lakhs are recognised in the financial statements.

We have identified this as a key audit matter considering the significant changes in the financial statements of the company along with the changes in critical judgements related to leases and complexities involved in determining the impact and accounting of Ind AS 116.

Audit Methodology:

- We understood company procedure for adoption of Ind AS 116 including judgements and practical expedients applied by company at the time of first time adoption of this standard.
- We tested appropriateness of key internal controls adopted by company for ensuring completeness of accounting of leases.
- We checked parameters such as lease terms, lease payments, option to extend or terminate the lease contract.
- We critically analysed recognition of right of use of asset and lease liability both on the transition date as well as on reporting date considering modification to lease contract agreed before adoption of accounts.
- We checked the accounting treatment and disclosures provided in the financial statement for leases recognised in accordance with new lease standard.

AUDIT REPORT OF LA-GAJJAR MACHINERIES PRIVATE LIMITED (2019-20)

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the director's report, but does not include the standalone Ind AS financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the standalone financial position, standalone financial performance, standalone changes in equity and standalone cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified in the Companies (Indian Accounting Standards) Rules, 2015 (as amended) under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material

AUDIT REPORT OF LA-GALJAR MACHINERIES PRIVATE LIMITED (2019-20)

BHAG

FDACCO

CHARTERED ACCOUNTANTS

if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to standalone financial statement in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

AUDIT REPORT OF LA-GALIAR MACHINERIES PRIVATE LIMITED (2019-20)

CHARTERED ACCOUNTANTS

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A; a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
- 2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), and the Cash Flow Statement and the statement of changes in equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with the Companies (Indian Accounting Standard) Rules, 2015 as amended.
 - e) On the basis of the written representations received from the directors as on 31 March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, and to the best of our information and according to the explanations given to us, the company has not paid/ provided any remuneration to its directors during the year except sitting fees. In our opinion the same is in accordance with the provisions of section 197 of the act.

AUDIT REPORT OF LA-GALIAR MACHINERIES PRIVATE LIMITED (2019-20)

M/s P. G. BHAGWAT

CHARTERED ACCOUNTANTS

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements Refer 34.5.1 to the financial statements.
 - (ii) The Company did not have any long-term contracts including derivative contracts as at 31st March, 2020.
 - (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

Other Matter

Due to COVID-19 related lockdown across India, we were not able to physically attend the verification of inventory that was carried out by the management subsequent to the year end. Consequently, we have performed alternative procedures to audit the existence of inventory as per the guidance provided in SA 501 "Audit Evidences – Specific considerations for selected items" and have obtained sufficient appropriate audit evidence to issue our unmodified opinion on these standalone financial statements.

Our opinion is not modified in respect of this matter.

Annexure A to Independent Auditors' Report (CARO)

- i. (a) The Company has maintained proper records showing full particulars including quantitative details and situation of Fixed Assets.
 - (b) The fixed assets are physically verified by the Management during the financial year under audit to cover all material items. Material Discrepancies were noticed on such verification, which have been properly dealt with in the books of account.
 - (c) The Company does not own any immovable properties as disclosed in 'Note 1Property, Plant & Equipment' to the financial statements. Therefore, the provisions of Clause 3(i)(c) of the said Order are not applicable to the Company.
- ii. The physical verification of inventory [excluding stocks with third parties] have been conducted at reasonable intervals by the Management during the year. In respect of inventory lying with third parties, these have substantially been confirmed by them at reasonable intervals. The discrepancies noticed on physical verification of inventory as compared to book records were not material.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under Section 1890f the Act. Therefore, the provisions of Clause 3(iii), (iii)(a), (iii)(b) and (iii)(c) of the said Order are not applicable to the Company.
- The Company has not granted any loans or made any investments, or provided any guarantees or security to the parties covered under Section 185 and 186. Therefore, the provisions of Clause 3(iv) of the said Order are not applicable to the Company.
- v. In our opinion and according to information and explanation given to us, the Company has not accepted public deposits, hence the directive issued by the Reserve Bank of India and the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act and the rules framed there under, are not applicable to it. According to information and explanation given to us, no order has been passed against the company by Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other tribunal
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Act in respect of its products. We have broadly reviewed the same, and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. (a) According to the information and explanations given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing the undisputed statutory dues in respect of income tax, though there has been slight delay in few cases and is generally regular in depositing the undisputed statutory dues including employees' state insurance, provident fund, sales tax, service tax, duty of customs, duty of excise, value added tax,

Goods and Service Tax, cess and other material statutory dues, as applicable, with the appropriate authorities.

According to the information and explanation given to us, no undisputed amounts payable in respect of statutory dues were in arrears as at 31st March, 2020, for a period more than six months from the date they became payable

(b) According to the information and explanations given to us and the records of the Company examined by us, the particulars of dues of income tax, sales tax, service tax, duty of customs and duty of excise duty, value added tax, Goods and Service Tax, as at 31st March, 2020 which have not been deposited on account of a dispute, are as follows:

Name of the statute	Nature of dues	Amount under dispute not deposited (Rs. In Lakhs)**	Period to which the amount relates	Forum where the dispute is pending
Sales Tax	Demand for disallowance of claims	118.52	2006-07	Sales Tax Tribunal
Sales Tax	Non Receipt of Forms	13.09	2014-15 2015-16 2016-17	Assistant Commissioner of Commercial Taxes
Sales Tax	Non Receipt of Forms	37.64	2015-16 2016-17 2017-18	Appellate Joint Commissioner

** Net of amount paid under protest of Rs. 7.38 Lakhs.

- viii. According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or borrowings to any financial institution or bank or Government or dues to debenture holders as at the balance sheet date and also not issued debentures.
- ix. The Company has not raised any moneys by way of initial public offer, further public offer (including debt instruments) and term loans. Accordingly, the provisions of Clause 3(ix) of the Order are not applicable to the Company.
- x. During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of fraud by the Company or on the Company by its officers or employees, noticed or reported during the year, nor have we been informed of any such case by the Management.
- The company has not paid any remuneration as defined under section 197 of the Companies Act, 2013 during the year. Accordingly provisions of the clause 3 (xi) of the Companies (Auditor's Report) Order, 2016 are not applicable to the company.

U. D. REPORT OF LA-GAHAR MACHINERILS PRIVATE FIMILI D (2019-20)

- xii. As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the provisions of Clause 3(xii) of the Order are not applicable to the Company.
- xiii. The Company has entered into transactions with related parties in compliance with the provisions of Sections 177 and 188 of the Act. The details of such related party transactions have been disclosed in the financial statements as required under Accounting Standard Ind AS 24, Related Party Disclosures specified under Section 133 of the Act, read with Companies (Indian Accounting Standard) Rules, 2015 as amended.
- xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review. Accordingly, the provisions of Clause 3(xiv) of the Order are not applicable to the Company.
- xv. The Company has not entered into any non-cash transactions with its directors or persons connected with him. Accordingly, the provisions of Clause 3(xv) of the Order are not applicable to the Company.
- xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the provisions of Clause 3(xvi) of the Order are not applicable to the Company.

Annexure B to the Independent Auditor's Report of even date on the Standalone (Ind AS) Financial Statements of La-Gajjar Machineries Pvt Ltd

Report on the Internal Financial Controls with reference to Standalone (Ind AS) Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to Standalone (Ind AS) Financial Statements of La-Gajjar Machineries Pvt Ltd ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether internal financial controls

CHARTERED ACCOUNTANTS

with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of Internal Financial Controls Over Financial Reporting with reference to standalone financial statements

A company's internal financial control over financial reporting with reference to standalone financial statement is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to standalone financial statement includes those policies and procedures that (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2)Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with reference to standalone financial statements.

Because of the inherent limitations of internal financial controls over financial reporting with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to Standalone Financial Statements to future periods are

M/s P. G. BHAGWAT

CHARTERED ACCOUNTANTS

subject to the risk that the internal financial control over financial reporting with reference to Standalone Financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects internal financial controls with reference to financial statements and such internal financial controls were operating effectively as at March 31,2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Provision for employee benefits		
Provision for gratuity	54.00	22.25
Provision for compensated absences	33.79	33.59
Other provisions		
Provision for warranty	1,010.98	876.63
Tax Provision (Net of AdvanceTax)	-	56.69
Total	1,098.77	989.16

1. Employee benefits obligations

a. Gratuity

The Company provides gratuity for employees as per the Gratuity Act, 1972. Employees who are in continuous service for a period of five years are eligible for gratuity. The amount of gratuity is payable on retirement or termination whichever is earlier. The level of benefits provided depends on the member's length of service and salary at retirement age. The gratuity plan is a funded plan. Refer Note 34.5.5

b. Compensated absences

The leave obligation cover the Company's liability for earned leaves which is expected to be paid-off in next 12 months

2. Other Provisions

a. Warranty

Warranty is given to customers at the time of sale of Pumps, Motors and Pumpsets manufactured. Warranty cost includes expenses in connection with repairs, free replacement of parts and after sales services during warranty period.

Provision is made for estimated warranty claims in respect of products sold which are still under warranty at the end of reporting period. It is expected that majority of these costs will be incurred in the next financial year and balance will be incurred in following years. Management estimates the provision based on historical warranty claim information and any recent trends that may suggest future claims could differ from historical amounts.

NOTE 34: NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS AS AT AND FOR THE YEAR ENDED 31 MARCH 2020

1. Corporate Information

The company is a Private Limited Company domiciled in India and is incorporated under the provisions of the Companies Act 1956. The registered office of the company is located at Acidwala Estate, Nagarwel Hanuman Road, Amraiwadi, Ahmedabad – 380 026. The equity shares of the company are not listed on any stock exchanges in India.

The company is a subsidiary company of Kirloskar Oil Engines Ltd.

The company is engaged in the business of manufacturing and sales of Submersible Pumps, Electric Motors, Electrical Switches and spares thereof.

The standalone financial statements were approved by the Board of Directors and authorized for issue on 30th May 2020.

2. Basis of preparation of Financial Statements

The Company's standalone financial statements have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards ("Ind AS") as issued under the Companies (Indian Accounting Standards) Rules, 2015 and amendments thereof issued by the Ministry of Corporate Affairs in exercise of the powers conferred by section 133 read with rule 7 of the companies (Accounts) Rules, 2014. In addition, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied.

The standalone financial statements have been prepared on a historical cost basis, except for,

- (i) the investments which have been measured at fair value as they are classified as fair value through profit or loss or fair value through other comprehensive income.
- (ii) defined benefit plans plan assets measured at fair value

3. Significant accounting judgements, estimates and assumptions

The preparation of the company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods. The Company continually evaluates these estimates and assumptions based on the most recently available information. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable.

3.1. Judgements

In the process of applying the company's accounting policies, the management has made the following judgements, which have the most significant effect on the amounts recognised in the standalone financial statements:

Leases

The company has applied provisions of Ind AS 116 effective 01st April, 2019. The said standard provides for certain recognition exemptions for short term leases as well as provides for certain criteria when the lease contracts are non-enforceable. The determination of lease term for the purpose of availing such exemptions and evaluation of such criteria for non-enforceability of a contract involves significant judgment.

Revenue Recognition

The company generally recognizes revenue when the performance obligation is satisfied at a point in time when the control is transferred i.e. either on shipment or upon delivery in domestic and in case of export on the date of bill of lading.

<u>Customer Reward Points</u>: The points provide a material right to customers that they would not have received had they not entered into the contract. Thus, the promise to provide points to the customer is a separate performance obligation. The transaction price is allocated to the product and the reward points on the basis of relative stand - alone selling price. Management estimates the standalone selling price per reward point on the basis of the benefits passed on to the customer and on the basis of the likelihood of redemption, based on past experience.

3.2. Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The company bases its assumptions and estimates on information available till the date of approval of these standalone financial statements. The assumptions and estimates, however, may change based on future developments, due to market conditions or due to circumstances arising that are beyond the control of the company. Such changes are reflected in the assumptions and estimates when they occur.

Defined benefit plans

The cost of the defined benefit plans and other post-employment benefits and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate,

LA-GAJJAR MACHINERIES PRIVATE LIMITED

future salary increases, mortality rates and future post-retirement medical benefit increase. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The most sensitive parameter is the discount rate. In determining the appropriate discount rate, management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation and extrapolated as needed along the yield curve to correspond with the expected term of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at intervals in response to demographic changes. Future salary increases are mainly based on expected future inflation rates for the country.

Further details about defined benefit obligations are provided in Note 34.5.5

Deferred Tax

Deferred tax assets are recognised for all deductible temporary differences including the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

Impairment of Goodwill recognized under Business Combination

The company estimates whether goodwill accounted under business combination has suffered any impairment on annual basis. For this purpose, the recoverable amount of the CGU was determined based on value in use calculations which require the use of assumptions.

Uncertainty relating to Global health pandemic on COVID-19

The 'severe acute respiratory syndrome coronavirus 2' (SARS-CoV-2) virus responsible for COVID-19 continues to spread across the globe and India, which has contributed to a significant decline and volatility in global and Indian economy. On March 11, 2020 the COVID-19 outbreak was declared as a global pandemic by the World Health Organization. The Government of India declared a lock down effective from March 23, 2020 which was initially till April 14, 2020 and is now extended till May 31, 2020. Accordingly, the manufacturing facilities of the Company in Ahmedabad, Gujarat were closed on March 23, 2020. The Company has since obtained required permissions and restarted its places of business, albeit, partially since April 27, 2020.

The extent to which the COVID-19 pandemic will impact the Company's results will depend on future developments, which are highly uncertain, including, among other things, any new information concerning the severity of the COVID-19 pandemic and

any action to contain its spread or mitigate its impact whether government mandated or elected by the Company. The company has made initial assessment of recoverability of its assets like trade receivables, Inventories and other asset based on internal as well as external information up to the date, conducted sensitivity analysis of the assumptions used and is reasonably certain that these need not be impaired as on 31st March 2020. However the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration which may be different from that estimated as at the date of approval of these financial results, and the Board will continue to closely monitor the developments.

4. Significant Accounting Policies

4.1. Current Vs Non-Current Classification

The company presents assets and liabilities in the Balance Sheet based on current / non-current classification.

An asset is current when it is:

- a. Expected to be realised or intended to be sold or consumed in normal operating cycle
- b. Held primarily for the purpose of trading
- c. Expected to be realised within twelve months after the reporting period, or
- d. Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non - current.

A liability is current when it is:

- a. Expected to be settled in normal operating cycle
- b. Held primarily for the purpose of trading
- c. Due to be settled within twelve months after the reporting period, or
- d. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are treated as non - current.

Deferred tax assets and liabilities are classified as non - current assets and liabilities.

4.2. Fair value measurement

The company measures financial instruments such as investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, Or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the company.

The Company measures the fair value of an asset or a liability assuming that market participants would use it when pricing the asset or liability and that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the standalone financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value.

External valuation experts are involved for valuation of significant assets and liabilities. Involvement of external valuation experts is decided upon annually by the management.

4.3. Property , Plant and Equipment

a. The company has adopted Ind AS from transition date 1st April 2016. Accordingly the company has elected to continue with the carrying value of all of its Property, plant and equipment measured as per the Indian GAAP as at 31 March 2016 and use those values as deemed cost.

Property, plant and equipment; and construction in progress are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. Such cost includes the cost of replacing parts of the property, plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of property, plant and equipment are required to be replaced at intervals, the company recognises such parts as individual assets with specific useful lives and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the Property, Plant and Equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the Standalone Statement of Profit and Loss as incurred.

- b. Capital work-in-progress comprises cost of property, plant and equipment that are not yet installed and ready for their intended use at the balance sheet date.
- c. Own manufactured assets are capitalised at cost including an appropriate share of allocable expenses.
- d. The company has been depreciating its property, plant and equipment over its useful life following Written Down Value Method of Depreciation till end of Financial Year 2018-19. Effective 1st April,2019, the company has decided to change its method of depreciation from Written Down Value Method to Straight Line Method considering the following facts:
 - Usage of Plant and Machinery for Electric Pump Manufacturing is simple which gives consistent product Output throughout its useful life.
 - Property, plant and equipment other than Plant & Machinery also are used in normal course of business with no accelerated use.
 - Accuracy of machining remains at equal standard throughout majority of life.
 - The company wants to change depreciation method to Straight Line to align its accounting estimation in line with parent company.

LA-GAJJAR MACHINERIES PRIVATE LIMITED

Impact of Change in Accounting Estimate:

	-		(₹ in Lakhs)
Financial Year	Depreciation as per Written Down Value Method	Depreciation as per Straight Line Method	Increase / (Decrease) in Depreciation
2019-20	719.73	537.01	(182.72)
2020-21	599.18	487.83	(111.35)
2021-22	497.23	472.65	(24.58)
2022-23	410.88	423.92	13.04
2023-24	212.41	241.43	29.02
2024-25	104.46	147.40	42.94

Depreciation and Amortization

Depreciation is charged on the basis of useful life of assets on Straight Line method which are as follows:

Asset Category	Life in	Basis for useful life
	Years	
Leasehold improvements	Lease	Amortised over lease period
	Period	
Plant & Equipment including	15	Life as prescribed under Schedule-II of
Pattern Tooling		Companies Act, 2013
Jigs & Fixtures	8	Lower useful life considered based on past
		history of usage and supported by Technical
		Evaluation
Computers		
Network	6	Life as prescribed under Schedule-II of
End user devices, such as,	3	Companies Act, 2013
desktops, laptops, etc.		
Servers	6	
Electrical Installations	10	Life as prescribed under Schedule-II of
		Companies Act, 2013
Furniture & Fixture		
Furniture, Fixtures and	10	Life as prescribed under Schedule-II of
Electrical Fittings		Companies Act, 2013
AC, Refrigerators and Water		Life as prescribed under Schedule-II of
coolers - Company and Guest	5	Companies Act, 2013
House Premises		
		Life as prescribed under Schedule-II of
Office Equipment	5	Companies Act, 2013
Vehicles		
Motorcars, Jeep	8	Life as prescribed under Schedule-II of
Two Wheelers	10	Companies Act, 2013
Other Vehicles	8	

- Used assets obtained under Business Combination are measured based on their remaining useful life as on the date of acquisition.
- Depreciation on additions is provided from the date when asset is ready to use.
- Depreciation on assets sold, discarded or demolished during the year is being provided at their respective rates on pro-rata basis up to the date on which such assets are sold, discarded or demolished.
- Foreign exchange fluctuation gain/ loss on imported plant and equipment were charged to Profit & Loss statement up to transition date of Ind AS.

The company, based on technical assessments made by technical experts and management estimates and depreciates certain items of plant and equipment over a useful lives which is different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Standalone Statement of Profit and Loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Security:

As at 31st March 2020, Properties, Plant & Equipment with a carrying amount of ₹1369.66 Lakhs (31st March 2019 ₹ 1607.00 Lakhs) are subject to first charge to secure bank loan. Refer note 16 "Borrowings".

4.4. Investment properties

Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment losses, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the property are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

An investment property is derecognised on disposal or on permanent withdrawal from use or when no future economic benefits are expected from its disposal. Any

gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

Transfers are made to (or from) investment property only when there is a change in use. Transfers between investment property, owner-occupied property and inventories are at carrying amount of the property transferred.

4.5. Intangible Assets

Intangible assets are recorded at the consideration paid for its acquisition. In case of internally generated intangible assets, expenditure incurred in development phase, where it is reasonably certain that the outcome of development will be commercially exploited to yield future economic benefits to the company, is considered as an intangible asset. Such developmental expenditure is capitalized at cost including a share of allocable expenses.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite useful lives are amortised by using Straight Line method over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset maybe impaired. Amortisation of Intangible assets is included in the depreciation and amortisation in the statement of Profit and Loss.

Sr. No.	Asset category	Life in years
1	Computer Software	3 - 5 years
2	Customer Relationship	5 years

The amortisation period and amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives, if any are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the asset is derecognised.

4.6. Borrowing Cost

Borrowing Costs net of any investment income from temporary investment of related borrowings that are directly attributable to the acquisition, construction or production of qualifying assets are capitalized till the month in which the asset is ready to use, as part of the cost of that asset. Other borrowing costs are recognised as expenses in the period in which these are incurred.

4.7. Impairment of non-financial assets

The company assesses at each balance sheet date whether there is any indication due to internal or external factors that an asset or a group of assets comprising a Cash Generating Unit (CGU) may be impaired. If any such indication exists, the company estimates the recoverable amount of the assets. If such recoverable amount of the assets or the recoverable amount of the CGU to which the asset belongs is less than the carrying amount of the assets or the CGU as the case may be, the carrying amount is reduced to its recoverable amount and the reduction is treated as an impairment loss and is recognized in the profit and loss account. If at any subsequent balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at recoverable amount subject to a maximum of depreciated historical cost and is accordingly reversed in the profit and loss account.

4.8. Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial assets

(i) Initial recognition and measurement of financial assets

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial assets. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

(ii) Subsequent measurement of financial assets

For the purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets at amortised cost
- Financial assets at fair value through other comprehensive income (FVOCI)
- Financial assets at fair value through profit or loss (FVTPL)

• Financial assets at amortised cost :

A financial asset is measured at amortised cost if:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured by applying the effective interest rate (EIR) to the gross carrying amount of a financial asset if applicable. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss.

• Financial assets at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if:

- the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets, until they are derecognised or reclassified, are subsequently measured at fair value with unrealised gains or losses recognised in other comprehensive income except for interest income, impairment gains or losses and foreign exchange gains and losses which are recognised in the statement of profit and loss.

• Financial assets at fair value through profit or loss

A financial asset is measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income.

In addition, the company may elect to classify a financial asset, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

After initial measurement, such financial assets are subsequently measured at fair value with unrealised gains or losses recognised in the statement of profit and loss.

(iii) Derecognition of financial assets

A financial asset is derecognised when:

- the contractual rights to the cash flows from the financial asset expire, or
- The company has transferred its contractual rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognise the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

(iv) Reclassification of financial assets

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to external parties. A change in the business model occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the

immediately next reporting period following the change in business model. The company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

The following table shows various reclassifications and how they are accounted for.

Original	Revised	Accounting treatment
classification	classification	
Amortised	FVTPL	Fair value is measured at reclassification
cost		date. Difference between previous
		amortized cost and fair value is recognised
		in the statement of Profit and loss.
FVTPL	Amortised	Fair value at reclassification date becomes
	Cost	its new gross carrying amount. EIR is
		calculated based on the new gross carrying
		amount.
Amortised	FVOCI	Fair value is measured at reclassification
cost		date. Difference between previous
		amortised cost and fair value is recognised
		in OCI. No change in EIR due to
		reclassification.
FVOCI	Amortised	Fair value at reclassification date becomes
	cost	its new amortised cost carrying amount.
		However, cumulative gain or loss in OCI is
		adjusted against fair value. Consequently,
		the asset is measured as if it had always
		been measured at amortised cost.
FVTPL	FVOCI	Fair value at reclassification date becomes
		its new carrying amount. No other
		adjustment is required.
FVTOCI	FVTPL	Assets continue to be measured at fair
		value. Cumulative gain or loss previously
		recognized in OCI is reclassified to
		statement of profit and loss at the
		reclassification date.

(v) Impairment of financial assets

In accordance with Ind AS 109, the company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost.
- Financial assets that are debt instruments and are measured as at FVOCI
- Lease receivables under Ind AS 116
- Trade receivables under Ind AS 115

The company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables resulting from transactions within the scope of Ind AS 115, if they do not contain a significant financing component
- Trade receivables or contract assets resulting from transactions within the scope of Ind AS 115 that contain a significant financing component, if the company applies practical expedient to ignore separation of time value of money, and
- All lease receivables resulting from transactions within the scope of Ind AS 116

The application of simplified approach does not require the company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the company expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider:

- All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the company is required to use the remaining contractual term of the financial instrument.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount

is reflected in a separate line in the P&L as an impairment gain or loss. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost, contract assets and lease receivables: ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the company does not derecognize impairment allowance from the gross carrying amount.
- Loan commitments: ECL is presented as a provision in the balance sheet, i.e. as a liability.

For assessing increase in credit risk and impairment loss, the company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The company does not have any purchased or originated credit-impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

b) Financial Liabilities

(i) Initial recognition and measurement of financial liabilities

All financial liabilities are recognised initially at fair value minus, in the case of financial liabilities not recorded at fair value through profit or loss, transaction costs that are attributable to the issue of the financial liabilities.

(ii) Subsequent measurement of financial liabilities

For the purposes of subsequent measurement, financial liabilities are classified and measured as follows:

• Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The company has not designated any financial liability as at fair value through profit and loss.

• Loans and Borrowings at amortised Cost

This is the category most relevant to the company. After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

(iii) Derecognition of financial liabilities

A financial liability (or a part of a financial liability) is derecognised from its balance sheet when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

4.9. Derivatives

Company uses derivative contracts to hedge its exposure against movements in foreign exchange rates. The use of derivative contracts is intended to reduce the risk or cost to the company. Derivative contracts are not used for trading or speculation purpose.

All derivatives are measured at fair value through the profit or loss unless they form part of a qualifying cash flow hedge, in which case the fair value is taken to reserves and released into the statement of profit and loss at the same time as the risks on the hedged instrument are recognised therein. Any hedge ineffectiveness will result in the relevant proportion of the fair value remaining in the statement of profit and loss. Fair values are derived primarily from discounted cash-flow models, optionpricing models and from third-party quotes. Derivatives are carried as assets when their fair values are positive and as liabilities when their fair values are negative. All hedging activity is explicitly identified and documented by the company.

4.10. Foreign Currency Transactions

a. Initial Recognition

Foreign currency transactions are recorded in Indian currency, by applying the exchange rate between the Indian currency and the foreign currency at the date of the transaction.

b. Conversion

Current assets and current liabilities, Secured Loans, being monetary items, designated in foreign currencies are revalorized at the rate prevailing on the date of Balance Sheet or forward contract rate or other appropriate rate.

c. Exchange Differences

Exchange differences arising on the settlement and conversion of foreign currency transactions are recognised as income or as expenses in the year in which they arise.

4.11. Leases

Lease is a contract that provides to the customer (lessee) the right to use an asset for a period of time in exchange for consideration.

a. Company as a lessee

A lessee is required to recognise assets and liabilities for all leases and to recognise depreciation of leased assets separately from interest on lease liabilities in the statement of Profit and Loss. The Company uses the practical expedient to apply the requirements of this standard to a portfolio of leases with similar characteristics if the effects on the financial statements of applying to the portfolio does not differ materially from applying the requirement to the individual leases within that portfolio.

However, when the lessee and the lessor each have the right to terminate the lease without permission from the other party with no more than an insignificant penalty the Company considers that lease to be no longer enforceable. Also according to Ind AS 116, for leases with a lease term of 12 months or less (short-term leases) and for leases for which the underlying asset is of low value, the lessee is not required to recognize right-of-use asset and a lease liability. The Company applies both recognition exemptions. The lease payments associated with those leases are generally recognized as an expense on a straight-line basis over the lease term or another systematic basis if appropriate.

Right-of-use Asset

Right-of-use assets, which are included under property, plant and equipment, are measured at cost less any accumulated depreciation and, if necessary, any accumulated impairment. The cost of a right-of-use asset comprises the present value of the outstanding lease payments plus any lease payments made at or before the commencement date less any lease incentives received, any initial direct costs and an estimate of costs to be incurred in dismantling or removing the underlying asset. In this context, the Company also applies the practical expedient that the payments for non-lease components are generally recognized as lease payments. If the lease transfers ownership of the underlying asset to the lessee at the end of the lease term or if the cost of the right-of-use asset reflects that the lessee will exercise a purchase option, the right-of-use asset is depreciated to the end of the useful life of the underlying asset. Otherwise, the right-of-use asset is depreciated to the end of the end of the lease term.

Lease Liability

Lease liabilities, which are assigned to financing liabilities, are measured initially at the present value of the lease payments. Subsequent measurement of a lease liability includes the increase of the carrying amount to reflect interest on the lease liability and reducing the carrying amount to reflect the lease payments made.

Lease Modification

For a lease modification that is not accounted for as a separate lease, the company accounts for the re-measurement of the lease liability by making a corresponding adjustment to the right-of-use asset.

b. Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Where the Company is a lessor under an operating lease, the asset is capitalised within property, plant and equipment and depreciated over its useful economic life. Payments received under operating leases are recognised in the Statement of profit and Loss on a straight-line basis over the term of the lease.

4.12. Inventories

- a. The company had been valuing its inventories using the FIFO formula Method of Inventory Valuation till the end of Financial Year 2018-19. Effective 1st April,2019, the company has decided to change its method of Inventory valuation to Weighted Average formula Method considering the following facts:
 - The FIFO formula method assumes that the items of inventory that were purchased or produced first are sold first, and consequently the items remaining in inventory at the end of the period are those most recently purchased or produced, which may not always be the case due to the companies commercial activities spread across various geographical locations.
 - Under the weighted average cost formula, the cost of each item is determined from the weighted average of the cost of similar items at the beginning of a period

and the cost of similar items purchased or produced during the period. This will provide for a more reliable valuation of the inventories and also ensure consistency in valuation of similar products.

- The company also wants to align its valuation policy in line with its Parent Company, Kirloskar Oil Engines Limited, for the symmetry in the consolidated results.
- There is no material impact identified due to the change in methods on the inventory valuation as on 31st March 2020 and 31st March 2019 hence policy change has not been applied retrospectively.
- b. Raw materials, components, stores and spares are valued at cost or net realizable value whichever is lower. Cost includes all cost of purchase and incidental expenses incurred in bringing the inventories to their present location and condition.
- c. Work-in-process including finished components and finished goods are valued at cost or realisable value whichever is lower. Cost includes direct materials, labour costs and a proportion of manufacturing overheads based on the normal operating capacity.
- d. Materials-in-transit and materials in bonded warehouse are valued at actual cost incurred up to the date of balance sheet.
- e. Unserviceable, damaged and obsolete inventory is valued at cost or net realisable value whichever is lower.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

4.13. Cash and cash equivalents

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short term, highly liquid investments that are readily convertible into known amounts of cash which are subject to an insignificant risk of changes in value. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

4.14. Taxes

Current income tax

Current income tax assets and liabilities are measured at the amounts expected to be recovered from or paid to the taxation authorities; on the basis of the taxable profits computed for the current accounting period in accordance with Income Tax Act, 1961 and book profit in case of minimum alternate tax under section 115JB of Income Tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted at the reporting date.

Current income tax relating to items recognised in other comprehensive income or directly in equity is recognised in other comprehensive income or in equity, respectively, and not in the statement of Profit and Loss. The Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax liabilities are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets are recognised for all deductible temporary differences including, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint arrangements, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be

LA-GAJJAR MACHINERIES PRIVATE LIMITED

available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised outside the profit or loss. Deferred tax items are recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Sales tax / GST

Expenses and assets are recognised net of the amount of GST, except:

- When the GST incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable.
- When receivables and payables are stated with the amount of GST included.

The net amount of Sales tax / GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

4.15. Non-Current Assets held for sale and Discontinuing operations

A. Non-Current Assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amounts will be recovered principally through a sale transaction rather than through continuing use. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. This condition is regarded as met only when the sale is highly probable and the asset or disposal group is available for immediate use in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.
B. Discontinuing operations

Discontinuing operations are excluded from the results of continuing operations and are presented as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss account.

Assets and liabilities classified as held for distribution are presented separately from others assets and liabilities in the balance sheet.

A disposal group qualifies as discontinued operation if it is a component of an entity that either has been disposed of, or is classified as held for sale, and:

- a) Represents a separate major line of business or geographical area of operations,
- b) Is part of a single co-ordinated plan to dispose of a separate major line of business or geographical area of operations

Or

c) Is a subsidiary acquired exclusively with a view to resale

An entity does not depreciate (or amortise) a non-current asset while it is classified as held for sale or while it is part of a disposal group classified as held for sale.

4.16. Employee Benefits

a) Short Term Employee Benefits

The distinction between short term and long term employee benefits is based on expected timing of settlement rather than the employee's entitlement benefits. All employee benefits payable within twelve months of rendering the service are classified as short term benefits. Such benefits include salaries, wages, bonus, short term compensated absences, awards, ex-gratia, performance pay etc. and are recognised in the period in which the employee renders the related service.

- b) Post-Employment Benefits
 - (i) Defined contribution plan

The company makes payment to state government provident fund scheme and employee state insurance scheme which are defined contribution plans. The contribution paid/payable under the schemes is recognised in the statement of profit and loss during the period in which the employee renders the related service. The company has no further obligations under these schemes beyond its periodic contributions.

(ii) Defined benefit plan

The employee's gratuity fund scheme is Company's defined benefit plans. The present value of the obligation under such defined benefit plans is determined based on the actuarial valuation using the Projected Unit Credit Method as at the date of the Balance sheet. In case of funded plans, the fair value of plan asset is reduced from the gross obligation under the defined benefit plans, to recognise the obligation on a net basis.

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Re-measurements are not reclassified to the profit or loss in subsequent periods.

Past service costs are recognised in the statement of profit and loss on the earlier of:

- The date of the plan amendment or curtailment, and
- The date that the company recognises related restructuring costs

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income.
- (iii) Other than the Defined contribution plan and Defined benefit plan disclosed above, the company does not offer any other Long term employment benefits or Termination benefits to its employees.

4.17. Provisions and Contingencies

Necessary provisions are made for the present obligations that arise out of past events entailing future outflow of economic resources. Such provisions reflect best estimates based on available information.

However a disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

4.18. Revenue Recognition

The company recognizes revenue, when or as control over distinct goods or services is transferred to the customer; i.e. when the customer is able to direct the use of the transferred goods or services and obtains substantially all of the remaining benefits, provided a contract with enforceable rights and obligations exists and amongst others collectability of consideration is probable taking into account our customer's creditworthiness.

Revenue is the transaction price the company expects to be entitled to. Variable consideration is included in the transaction price if it is highly probable that a significant reversal of revenue will not occur once associated uncertainties are resolved.

The amount of variable consideration is calculated by either using the expected value or the most likely amount depending on which is expected to better predict the amount of variable consideration.

Consideration is adjusted for the time value of money if the period between the transfer of goods or services and the receipt of payment exceeds twelve months and there is a significant financing benefit either to the customer or the company. If a contract contains more than one distinct good or service, the transaction price is allocated to each performance obligation based on relative stand-alone selling prices. If stand-alone selling prices are not observable, the company reasonably estimates those. Revenue is recognized for each performance obligation either at a point in time or over time.

Performance obligations are identified based on individual terms of contract. If a contract contains more than one distinct good or service, the transaction price is allocated to each performance obligation based on relative stand-alone selling prices. If stand-alone selling prices are not observable, the company reasonably estimates them. Revenue is recognized for each performance obligation either at a point in time or over time.

Other Income

Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

4.19. Government Grant

Grants and subsidies from the government are recognized if the following conditions are satisfied,

- There is reasonable assurance that the company will comply with the conditions attached to it.
- Such benefits are earned and reasonable certainty exists of the collection.

Export Incentives

Export incentives under various schemes notified by government are accounted for in the year of exports as grant related to income and is recognized as other operating income in the statement of profit and loss if the entitlements can be estimated with reasonable accuracy and conditions precedent to claim are fulfilled.

4.20. Cash dividend

The company recognises a liability to make cash distributions to the equity holders of the company when the distribution is authorised and the distribution is no longer at the discretion of the company. As per the provisions of Companies Act, 2013, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions, if any, are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

4.21. Earnings Per Share

Earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

4.22. Cash Flow Statement

Cash flows are reported using the indirect method, whereby net profit before tax is adjusted for the effects of transactions of a non cash nature and any deferral or accruals of past or future cash receipts or payments. The cash flows from regular operating, investing and financing activities of the company are segregated.

4.23. Segment Reporting

a. Identification of Segments

The company has identified Domestic Business and Exports Business as its reportable segments. The company is engaged in the business of manufacturing and sales of Submersible Pumps, Electric Motors, Electrical Switches and spares thereof.

b. Allocation of common costs

Common allocable costs are allocated to the Domestic Business Segment based on sales of Domestic Business segment to the total sales of the company.

c. Unallocated items

Corporate assets and liabilities, income and expenses which relate to the company as a whole and are not allocable to segments, are included under other reconciling items.

4.24. Business combinations

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business combination is measured at fair value, which is calculated as the sum of acquisition date fair values of the assets transferred by the company, liabilities incurred by the company to the former owners of the acquiree and the equity interests issued by the company in exchange for control of the acquire. Acquisition related costs are generally recognized in profit or loss as incurred.

Goodwill is measured as the excess of,

- the sum of consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held equity interest in the acquiree (if any)
- over the net of the acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

When the consideration transferred by the company in a business combination includes assets or liabilities resulting from a contingent arrangement, the contingent consideration is measured at its acquisition date fair value and included as part of the consideration transferred in a business combination. Contingent consideration that is classified as an asset or liability is re-measured at subsequent reporting dates in accordance with Ind AS 109 Financial Instruments or Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets, with the corresponding gain or loss being recognised in profit or loss.

5. Additional Notes to the Financial Statements

5.1. Contingent Liabilities

	(₹ ir	n Lakhs)
	As at 31	As at 31
Contingent Liabilities not provided for	Mar 2020	Mar 2019
 a. Disputed Sales Tax Demands (₹ 7.38 Lakhs paid as deposit) 	176.63	120.52
b. Disputed ESI Demands	26.17	34.79
(₹3.10 Lakhs paid as deposit) c. Performance Bank Guarantee Outstanding	1549.56	1465.24
	1752.36	1620.55

5.2. Commitments

- (i) Estimated amount of Contracts remaining to be executed on capital account and not provided for (Net of advances) as on 31st March 2020 is ₹ 2949.11 lakhs (₹ 34.95 lakhs as on 31st March 2019)
- (ii)Aggregate amount of Bank Guarantees other than the Performance Guarantees outstanding as on 31st March 2020 is ₹ 59.97 lakhs (₹ 76.50 lakhs as on 31st March 2019)

(iii) Leases

Effective 1 April, 2019, the company adopted Ind AS 116 "Leases" using the modified retrospective transition method, applied to lease contracts that are ongoing as at 1 April, 2019. In accordance with such transition method, the company has recognised right-of-use asset at the date of initial application, for leases previously classified as operating leases, at an amount equal to lease liability, adjusted for prepaid or accrued lease payments. The following practical expedients have been used by the Company :

- The lease liability is measured at the present value of the outstanding lease payments only for leases previously classified as operating leases according to Ind AS 17 which are discounted using incremental borrowing rate at 1 April 2019. The weighted average incremental borrowing rate was 9%. The respective right-of-use asset is generally recognized at an amount equal to the lease liability.
- An impairment review is not performed. Instead, a right-of-use asset is adjusted by the amount of any provision for onerous leases recognized in the balance sheet as at 31 March, 2019.
- Regardless of their original lease term, leases for which the lease term ends at the latest on 31 March, 2020 are recognized as short-term leases.
- At the date of initial application, the measurement of a right-of-use asset excludes the initial direct costs.
- Information in hindsight is given due consideration when determining the lease term if the contract contains options to extend or terminate the lease.

In the context of the transition to Ind AS 116, right-of-use assets of ₹ 326.74 lakhs and lease liabilities of ₹ 181.69 lakhs were recognized as at 1 April, 2019.

The difference between the opening lease commitments disclosed under Ind AS 17 as at 31 March, 2019 and the lease liability recognized in the balance sheet as at 1 April, 2019 are in respect of the option to extend the lease term for a period of 6 months which has been considered in the calculation of the lease liability in accordance with the extant guidance provided in Ind AS 116.

	(₹ in Lakhs)
Particulars	2019-20
Depreciation charged on right-of-use asset	178.22
Interest expense on lease liability	7.58
Expense for short term leases	204.70
Cash outflow for leases	100.00
Carrying amount of right-of-use asset as on 31 st as on	724.54
31 st March 2020	
Carrying amount of Lease liabilities as on 31 st March	381.19
2020	

On adoption of Ind AS 116, the company has recognised following :

The company has agreed for a binding extension of the lease agreement for land and building which has lock in period up to December 2021. The said agreement has an extension option for further 18 months up to July 2023. The company has considered these extension period for the purpose of recognizing lease liability considering economic incentive. The lease payments during the said extended period are as follows :

	(₹ in Lakhs)
Period of Balance Term	Annual Lease Payment
From 1 st August, 2020 to 31 st December, 2021	100.00
From 1 st January, 2022 to 31 st July, 2023	186.00

La-gajjar Machineries Private Limited Notes to the Financial Statements

C. Funding Policy

The Company has a defined benefit gratuity plan in India (funded). The company's defined benefit gratuity plan is a final salary plan for employees, which requires contributions to be made to a separately administered fund.

The fund is managed by a trust which is governed by the Board of Trustees. The Board of Trustees are responsible for the administration of the plan assets and for the definition of the investment strategy.

D. Risk Exposure

Gratuity is a defined benefit plan and company is exposed to the Following Risks:

Interest rate risk : A fall in the discount rate which is linked to the G.Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Investment Risk : The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. Currently, for the plan in India, it has a relatively balanced mix of investments in government securities, and other debt instruments.

Asset Liability Matching Risk : The plan faces the ALM risk as to the matching cash flow. Since the plan is invested in lines of Rule 101 of Income Tax Rules, 1962, this generally reduces ALM risk.

<u>Mortality</u> risk : Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

<u>Concentration</u> <u>Risk</u>: Plan is having a concentration risk as all the assets are invested with the insurance company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

5.6. The company has amounts due to suppliers under The Micro, Small and Medium Enterprises Development Act 2006 (MSMED Act) as at 31 Mar 2020. The disclosure pursuant to the said Act is as under.

		(₹ in Lakhs)
Particulars	2019-20	2018-19
Total outstanding to MSME suppliers (Excluding Interest & Advance)	3184.54	2478.84
Payment made to suppliers (other than interest) beyond the appointed day, during the year	1.58	7273.22
Interest due and payable to suppliers under MSMED Act, for the payments already made	0.00	80.71
Interest due on principal amount remaining unpaid	0.61	0.00
Interest accrued and remaining unpaid at the end of the year to suppliers under MSMED Act	186.84	186.23

The Information has been given in respect of such vendors on the basis of information available with the company.

5.10. Earnings Per Share (Basic and Diluted)

Particulars	2019-20	2018-19
Profit for the year after tax (₹ in Lakhs)	1,643.43	1,151.05
Total number of equity shares at the end of the year (One Equity share of face value of ₹ 10/- each)	10,76,000	10,76,000
Weighted average number of equity shares for the purpose of computing Earnings Per Share	10,76,000	10,76,000
Basic and Diluted Earnings Per Share (in ₹)	152.74	106.98

Earnings per share are calculated in accordance with Indian Accounting Standard (Ind AS) 33, "Earnings Per Share".

5.11. Revenue Recognition

(A) Set out below is the disaggregation of the company's revenue from contracts with its customers :

			(₹ in Lakhs)
Particulars	Domestic Business	Export Business	Total
Revenue from contracts with customers	34,685.69	10,628.19	45,313.88

(B) The company has generated revenue of ₹ 55.88 Lakhs during the year from its Contract Liabilities as on 1 April, 2019.

- (C) The company generally recognizes revenue when the performance obligation is satisfied at a point in time when the control is transferred i.e. either on shipment or upon delivery in domestic and in case of export on the date of bill of lading. The payment is due from the date of sales and are generally on terms of 30 days to 120 days.
- (D) The company is in the business of manufacturing and trading of Electric Pumpsets and related spares and has a single obligation of delivery of goods as per the commercial contract terms with its customers. In some cases the company also provides extended warranty to its customers.
- (E) The company provides to its customers warranties in the forms of repairs or replacement under its standard terms and recognizes it as warranty provision as per Ind AS 37 "Provisions, Contingent Liabilities and Contingent Assets"
- (F) As on 31st March, 2020, the company has unsatisfied performance obligation of ₹656.68 Lakhs of which ₹311.83 Lakhs will be recognized as revenue in financial year 2020-21 and remaining in subsequent years based on contractual terms.

(G) Reconciliation of the company's revenue from contract price	with	revenue
recognized in the statement of Profit and Loss is as follows :		

		(₹ in Lakh
Particulars	2019-20	2018-19
Revenue as per Contract	47,402.99	42,479.79
Less : Discounts and Incentives	2,089.11	1,105.17
Revenue from contracts with customers	45,313.88	41,374.62

5.12. Fair value disclosures for financial assets and financial liabilities

The management believes that the fair values of non-current financial assets (e.g., investments at FVPL, loans and others),current financial assets (e.g., cash and cash equivalents, trade and other receivables, loans), non-current financial liabilities and current financial liabilities(e.g. Trade payables and other payables and others) approximate their carrying amounts.

5.13. Financial instruments risk management objectives and policies

The company's principal financial liabilities, other than derivatives, comprise borrowings, trade and other payables and other financial liabilities. The main purpose of these financial liabilities is to finance and support the company's operations. The company's principal financial assets include investments, loans, trade and other receivables, cash and short-term deposits and other financial assets that have been derived directly from its operations. The company had entered into derivative transactions in the past, however no such transactions have taken place during the current financial year. The company is exposed to market risk, credit risk and liquidity risk. The company's senior management oversees the management of these risks. The Audit Committee and Board review financial risks and the appropriate risk governance framework for the company's financial risks are identified, measured and managed in accordance with the company's policies and risk objectives. It is the company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk, price risk, such as equity price risk and commodity risk. Financial instruments affected by market risk include borrowings, deposits, investments, trade and other receivables, trade and other payables and derivative financial instruments.

The sensitivity analyses in the following sections relate to the position as at 31 March 2020 and 31 March 2019.

The analyses exclude the impact of movements in market variables on: the carrying values of gratuity provisions.

The following assumption has been made in calculating the sensitivity analyses:

• The sensitivity of the relevant statement of profit and loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2020 and 31 March 2019.

i) Interest rate risk

a. Exposure

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

		(₹ in Lakhs)
Particulars	As at 31 st March 2020	As at 31 st March 2019
Long Term Fixed Interest Loans	22.53	20.25
Short Term Fixed Interest Loans	0.00	39.25 1000.00
Long Term Floating Interest Loans	1852.27	2463.43
Short Term Floating Interest Loans	6966.32	4171.35

(₹ in Lakhs) Change in Effect on profit Effect on pre-**Financial Year** Interest rate before tax tax equity March 31, 2020 +50 bps (41.13)(41.13)41.13 -50 bps 41.13 March 31, 2019 +50 bps (55.21)(55.21)-50 bps 55.21 55.21

b. Interest Rate Sensitivity

The sensitivity is calculated only in respect of floating interest rate loan. It is calculated by changing the interest rates by 50 bps keeping all other factors constant.

ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The company's exposure to the risk of changes in foreign exchange rates relates primarily to the company's operating activities (when revenue or expense is denominated in a foreign currency).

Nature of Exposure	Currency	31 March 2020	31 March 2019
Receivable	USD	29,68,946	24,89,651
	EUR	-	-
Payable	USD	28,56,915	-
	EUR	19,500	13,000

Amounts in Foreign Currencies

The company manages its foreign currency risk by hedging transactions related to sales & purchases.

At 31 March 2020 and 31 March 2019, the company has hedged NIL and NIL USD and EURO respectively, of its total foreign currency exposure. When foreign currency risk is hedged, the company uses foreign currency forward contracts.

Foreign currency sensitivity

The following tables demonstrate the sensitivity to a reasonably possible change in USD & EURO exchange rates, with all other variables held constant. The impact on the company's profit before tax is due to changes in the fair value of monetary assets and liabilities. The impact on the company's pre-tax equity is due to changes in profit before tax. The company's exposure to foreign currency changes for all other currencies is not material.

			(₹ in Lakhs)
Financial Year	Change in USD rate	Effect on profit before tax	Effect on pre-tax equity
31 March, 2020	+5%	2.13	2.13
	-5%	(2.13)	(2.13)
31 March, 2019	+5%	85.00	85.00
	-5%	(85.00)	(85.00)
			(₹ in Lakhs
Financial Year	Change in EURO rate	Effect on profit before tax	Effect on pre-tax equity
31 March 2020	+5%	(0.82)	(0.82)
	-5%	0.82	0.82
31 March 2019	+5%	(0.51)	(0.51)
	-5%	0.51	0.51

iii) Commodity price risk

The company is affected by the price volatility of certain commodities. Its operating activities require the on-going purchase and manufacture of Pumps & Motors and therefore require a continuous supply of copper, steel and Iron. However, Company being the indirect user of these commodities, volatility in price of such commodity does not have direct or immediate impact on the profitability of the company. Hence, the company does not foresee any direct or immediate risk with respect to such commodity price fluctuation.

iv) Other Price Risk

The company does not hold investments in equity or mutual fund as on the date of Balance Sheet and hence it is not exposed to any such risks.

b) Credit risk

Credit risk is the risk that counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

Trade receivables

Receivables are reviewed, managed and controlled for each class of customers separately. Credit exposure risk is mainly influenced by class / type of customers, depending upon their characteristics. Credit risk is managed through credit approval process by establishing credit limits along with continuous monitoring of credit worthiness of customers to whom credit terms are granted. Wherever required, credit risk of receivables is further covered through letter of credit, bank guarantee, business deposits and such other forms of credit assurance schemes.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are combined into homogenous category and assessed for impairment collectively. The calculation is based on actual incurred historical data. The company does not hold collateral as security. The company evaluates the concentration of risk with respect to trade receivables as low, as its customers are spread over vast spectrum.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the company in accordance with the company's policy. Investments of surplus funds are made as per the approved investment policy. Investment limits are set to minimise the concentration of risks and therefore mitigate financial loss if any.

c) Liquidity risk

The company monitors its risk of a shortage of funds using a liquidity planning tool.

The company's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans. The company has access to a sufficient variety of sources of funding and debt maturing within 12 months can be rolled over with existing lenders.

Excessive risk concentration

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the company's performance to developments affecting a particular industry.

In order to avoid excessive concentrations of risk, the company's policies and procedures include specific guidelines to focus on the maintenance of a diversified portfolio. Identified concentrations of credit risks are controlled and managed

accordingly. Selective hedging is used within the company to manage risk concentrations at both the relationship and industry levels.

(i) The table below summarises the maturity profile of the company's financial liabilities based on contractual undiscounted payments:

					(₹	in Lakhs)
Particulars	On demand	less than 3 months	3 months to 1 year	1 year to 5 years	more than 5 years	Total
Year ended 31 March, 2020

Cash flows	(94.84)	(1,794.97)	627.88	(1,261.93)
Net debt as on 31 March 2020	22.32	(6,966.32)	(1,874.80)	(8,818.80)

5.14. Capital management

For the purpose of the company's capital management, capital includes issued equity capital and all other equity reserves attributable to the equity holders of the company. The primary objective of the company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholder value.

The company manages its capital structure and makes adjustments to it in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares.

No changes were made in the objectives, policies or processes for managing capital during the current year ended 31 March 2020 in comparison to the previous year ended 31 March 2019.

5.15. Expenditure on CSR Activities
